

Nitta Collagen Gel™

THE HIGHEST PERCENTAGE OF INTACT NATIVE COLLAGEN FIBERS

Proudly Made In The USA

Nitta Collagen Gel™ is our proprietary native collagen blend and the foundation of our business. It is comprised of 100% Type I Bovine Collagen.

From our labs... innovative products made from Nitta's native collagen blend, designed to make a difference in the world.

Nitta's native Collagen Gel is produced using only the finest materials. Our collagen is sourced exclusively from the coupon portion of the bovine, resulting in a pure and consistent product.

The raw materials used for Nitta Collagen Gel™ are derived only from herds with negligible risk for BSE and are inspected by the United States Department of Agriculture (USDA).

Nitta Collagen Gel™ is an excellent starter material for medical devices and biomedical research. Our delicate manufacturing process allows for the highest percentage of intact native collagen fibers when compared to the competition.

- Excellent biocompatibility and biodegradable
- Customizable based on application
- Uniform fibers resulting from our unique proprietary homogenization process
- Validated through research institutes and 510k trials
- Unrivaled supply chain
- Manufactured in the USA
