Our technical team will work with you to custom produce your color requirements for ready-to-use Co-Extrusion Gel.

Nitta Casings Collagen Co-Extrusion Gel is made of reconstituted bovine collagen and other food-grade ingredients. It is accepted by the U.S.D.A. for use in federally inspected establishments.

Nitta Casings Alginate Co-Extrusion Gel is made from extracts of alginic acid derived from various species of brown seaweeds. It is accepted by the U.S.D.A. for use in federally inspected establishments. The Sodium Alginate in this product meets the definitions and requirements for Sodium Alginate as set forth in the FCC 10th Edition, 21 C.F.R. 184.1724 (USA) and Item A.5 of Table IV (Canada), as well as being recognized as GRAS.

The ingredients used are subject to regulations by the Food and Drug Administration (F.D.A.). Viscofan Collagen USA Inc. operates a plant in Bridgewater, New Jersey, which is inspected by the F.D.A. and the New Jersey State Department of Health. For shipments of Nitta Casings Collagen Co-Extrusion Gel and Nitta Casings Alginate Co-Extrusion Gel outside the U.S.A. by a party other than Viscofan Collagen USA Inc., the responsibility to ensure regulatory compliance in the import country is that party's sole responsibility.

STORAGE CONDITIONS

Nitta Casings Collagen Co-Extrusion Gel and Nitta Casings Alginate Co-Extrusion Gel should be stored in a cool, dry location at 1° - 4° C / 33.8° - 39.2° F.
